Professional Courses On Environmental and Sustainable Design

The Department of architecture, The Chinese University of Hong Kong is organizing a number of workshops related to the captioned topic in the coming academic year (2003-2004). They are designed for Professionals working in the field wishing to learn more about the subject. The workshops, part of our MSc in Environmental and Sustainable Design Programmes, are now available to working professionals as non-degree CPD training. Participants who have completed the workshop and all assignments to a good level of achievement will be awarded a *Certificate of Merit*. Professional with this certificate(s) may be offered exemption to courses of the MSc and Postgrad Dip programme if they subsequently wish to enroll formally.

Workshops available in 2003-2004 are:

Bioclimatic Building Design

Professor Baruch Givoni, UCLA, USA

13 Sept to 21 Sept 2003

Daylighting & Lighting Design in Cities

Professor Peter Tregenza, Sheffield University, UK & Professor Edward Ng, CUHK

25 Oct to 2 Nov 2003

Life Cycle Costing & Assessment – buildability and embodied energy

Professor Raymond Cole, UBC, Canada

3 Jan to 11 Jan 2004

Computational Building Performance Simulation

(Performance Simulation for Urban Wind and Building Ventilation)

Professor Tsou Jin Yeu, CUHK

28 Feb to 7 Mar 2004

Please refer to the individual flyers of the workshops for more information and registration procedures. You may also visit www.sustain-cuhk.info (under News). Only very limited places are available.
